Partrtridge-King.

On the evening of May 18, at the pleasant home of Mr. and Mrs. Winfield Scott Partridge of Norway Lake, occurred the wedding of their youngest daughter, Evelyn B. Partridge to Walter F. King of Centerdale, R. I.

The bride was prettily gowned in white. The groom wore the regulation black suit. The ceremony was performed at 8 o'clock in the evening by the pastor, Rev. B. S. Rideout, of the Congregational church of Norway village.

The bride is a graduate of Norway High school, class of 1901. After teaching a few terms of school she took a business course at Portland in stenography and shorthand. Obtaining a good situation in Portland she held it until near the time of her marriage.

Mr. and Mrs. King left Monday a. m., for Rochester, N. H., going from there to Portsmouth a little later. They will be home again in about three months.

A Favorite that "Wears Well."

The Boston Comedy Company, H. Price Webber, manager, have been playing to good houses and appreciative audiences in Maine if we can believe the papers where they have been playing of late. Most of these places Mr. Webber has visited annually for twenty-seven years, and as one paper puts it, "His name stands for all that is honorable and satisfactory in his business. His announcement of a visit again next season was received with every mark of approval from the audience."

This Dog Persistent.

Dr. B. F. Bradbury has a new coach cog, a mongrel fox terrier who bobbed up from somewhere a few weeks ago while the doctor was making a professional call at Paris Hill. The dog followed the team to Norway when the doctor came back and made himself at home with the big St. Bernard, which Mr. Bradbury secured in Portland a few weeks ago. Each time the team went out the dog went too, and several times, when far from home, the doctor made efforts to lose the mongrel. The latter would have none of it, and would show up at the Bradbury home during the night. Dr. Bradbury finally gave the dog away and he was tied with a half-inch rope in a woodshed, where it was thought he would be safe from chasing the doctor's team. Next morning, however, when the doctor arose for breakfast the dog was sitting on the front step of the house, with six inches of chewed rope which had been his leash, dangling from his neck. Since then no efforts have been made to lose the dog and he now accompanies the doctor on all his rides. The animal has an unusual capacity for road racing and does not seem to tire of the long jaunts he is obliged to take to keep up with the doctor's team.

Pythian Ladies' Night.

Pennesseewassee Lodge, No. 18, Knights of Pythias, observed Ladies' night upon Tuesday evening. At about eight o'clock the Knights, their ladies and other friends gathered at Pythian Castle hall. A program of entertainment was given consisting of piano solos by Izah Pike, vocal solos by Mrs. H. Eugene Fifield, Marguerite Finney and James Dunn, readings by Esther Tower and Frank L. Starbird, and a new monologue and song by Harry Newcomb. Each of these selections by the well known and favorite entertainers were given with their usual excellence and were heartily encored. Izah Pike and Charlotte Young were the soloists' accompanists. Fred Moore, who was on the program, was unable to sing because of a throat difficulty.

After the entertainment was a social time and an impromptu entertainment of a song by Mr. Newcomb, readings by Nellie F. Hayden, brief remarks by Col. A. N. French and others, and the singing of familiar songs, Mrs. B. F. Bradbury officiating at the piano. Otto Schnuer was called upon for a German song, and he responded with the announcement that supper was ready which was as acceptable almost as the song would have been. The members of the Lodge formed in ranks of two followed by the Sisterhood, the outside guests bringing up the rear. A line of march was taken to Concert Hall, where a supper of strawberries in several forms, sandwiches, doughnuts, cakes and coffee was served by white coated Knights. The tables laid for a few more than 135 were just sufficient for the company. The supper was excellent and received ample justice from the assembled guests.

A very nice time indeed is the verdict of all present, and the Pythian Lodge have every reason to be highly pleased with their successful Ladies' night.

Death of Mrs. S. L. Etheridge.

In the death of Mrs. Etheridge the community suffers the loss of a very estimable lady, one who was active and instrumental in forwarding all good work, who was devoted to her family and true to the best ideals of womanhood. She was a member of the Universalist church, of Harry Rust Relief Corps and the W. C. T. U. and active in the work of each of these organizations.

She was a native of Grafton, her maiden name being King, and was 62 years of age. She lived in Newry, Bethel, Bryant's Pond, marrying Stephen L. Etheridge in the latter place in 1864, and residing in Leeds, coming to Norway some twenty-two years ago, where they have since resided. Besides a husband, she leaves a daughter, Lizzie M., and a son, William G., who reside in Norway, two sisters, Sarah White and Thirza White of North Newry, and a brother, Amos King, of Locke's Mills. Her death resulted from pneumonia complicated with Bright's disease, at sunset Sunday, at her home on Hazen street.

Funeral services were held Wednesday at 10.30 a. m., in the Universalist church, Rev. C. E. Angell officiating, assisted by Rev. S. G. Davis. Mrs. Frank Kimball and Mrs. Luella Smiley sung two beautiful duets. There was a large assemblage of friends. The Relief Corps attended in a body and the bearers were members of the Grand Army Post.

The floral tributes were beautiful and profuse. The remains were taken to Bryant's Pond by team and buried Wednesday afternoon.

W. F. Jones, former superintendant of the N. & P. street Railroad, but now holding a similar position at Newport, R. I., remembers us by sending a copy of the Newport Mercury, which enjoys the distinction of being the oldest paper in America. It's editor, John P. Sanborn, came from Freedom, N. H., and graduated at the New Hampton Institute.

The Junior Epworth League elected the following officers under the new Superintendent Gertrude Beasley:

Pres.—Marion Gibson.
1st V. Pres.—Gladys Frost.
2d V. Pres.—Bessie Brown.
3d V. Pres —Beatrice Stone.
4th V. Pres.—Rebecca Bennett.
Sec.—Willie Bennett.
Treas.—Cecil Brown.

Saturday evening, "A Jolly American Tramp" was presented at the Opera House to one of the largest crowds seen at the house for some time, one that should have called forth the company's best efforts. J. W. Sully as the tramp did fairly well, and Virginia Melville and Mary Keogh as Delia Dooley and Flo Barrett were good. The performance as a whole left something to be desired.

Merton L. Kimball, Esq., the new grand chancellor of the Knights of Pythias, has evidently inherited his father's ability as a leader in secret orders. He is the son of Alfred S. Kimball of Norway who has been at the head of the grand bodies of both the Masons and the Odd Fellows of Maine. The younger Mr. Kimball is a graduate of Bowdoin in the, class of 1887, and was an officer of the 1st Maine during its service in the Spanish war.—[Kennebec Journal.

While fishing with a bent pin and a crooked pole in the brook running through the meadow back of Dr. B. F. Bradbury's house, Monday morning, Roy Chaney caught a trout which weighed 17 ounces. It was sold to A. L. Sanborn while still alive, Mr. Sanborn intending to keep it as a curiosity, but it died soon after being placed in a tank. The fish probably came from the lake and had made the voyage from above the saw mill to the meadow by going through the waterwheels.

Growing through the concrete walk in the areaway between the savings bank building and the postoffice is an elm tree, not yet a foot tall but fully leaved and giving promise of a bright future if it is not molested by the small boys or grown folks. To the naked eye there is no earth for nourishment and at the base of the tree it looks as if it had pushed its way through the solid walk. Those who wheel the mail from the car track to the side door of the postoffice take great care not to run over the tree and the progress of its growth is watched each day.

Maud Pike celebrated the sixteenth anniversary of her birth, May 15, by giving a party to the members of her class in the High school, her Sunday school class and teachers of both. Although a heavy rain prevailed, it did not dampen the ardor of the young people. A variety of games, music, etc., were provided and the house placed at their disposal for the evening. Ice cream, cake, assorted candies etc., were served, and a general good time enjoyed. She was remembered by her classes and by individual members, with pretty and useful presents and a hope expressed that she would live to enjoy many anniversaries of her birth.

The musical pupils of Mrs. Verne M. Whitman gave a recital at the public hall in Peterboro, N. H., Friday evening. The house was packed with an enthusiastic and appreciative audience. Mrs. and Mr. Whitman gave one duet and several solos each and whenever they sang were loudly applauded and doubly encored. The recital was a great success in every way, about $50 being the net amount realized. Mr. Whitman has been reelected as principal of the high school with an increase of salary. His mother, Mrs. C. F. Whitman, will make her son a visit early in June and will be there at the graduation exercises of the school, and return with his family for their summer vacation.

At a parish meeting of the Universalist church in Freeport, it was voted to extend a call to Rev. Caroline E. Angell of Norwry. Miss Angell had preached in that church two Sundays and the satisfaction she gave was goodly and complete. She has been in the ministry for a long time and stands very highly in the estimation of all for the rare qualities that so nicely fit her for the good work in which she has been engaged with such a large degree of success. She was located at Norway for 20 years. Members of the Freeport church consider themselves fortunate indeed in securing for a pastor one who promises to be the means of arousing a revival of interest in all branches of church and philanthropic work. Rev. Miss Angell assumed her duties last Sunday. Miss Angell will be greatly missed by her many Norway friends.

School Temperance Meeting.

Last Thursday afternoon at 3 o'clock, was held a temperance meeting of the school children, attended by the scholars of all the grades below the high, numbering over 300, who had been excused from school for the purpose. Under the charge of the teachers and keeping step to the tap of a drum they marched to the Baptist church. A program was given consisting of singing by Miss Hayes' and Miss Griffith's pupils of the "Cold Water" song, which was well done. Mrs. C. N. Tubbs read the Crusade psalm, and prayer was offered by Rev. B. S. Rideout. Mrs. E. S. Cotton gave a talk illustrated by experiments of the character of alcohol, and of preparations containing it in quantities, that was very impressive of its injurious character. The exercises concluded with singing of America by all gathered and they fairly made the church ring with its tones.

The Union Gospel Temperance meeting held at the Opera House last Sunday afternoon was one of the best held for years. There was a large chorus of singers from the different churches, led by Mr. Monroe of North Norway. The gospel songs were sung with the spirit of the meeting which added to its interest. The local pastors and Rev. H. A. Clifford and Rev. Mr. Little of South Paris took part in the service which showed a spirit of union. The speaker, Dr. W. F. Berry, was at his best, and only those who were present can appreciate such an able and most needed address. There was a good audience which was made to feel the need of education in the home, church and state on temperance lines as never before.

Couldn't Lift Ten Pounds.

Doan's Kidney Pills Brought Strength and Health to the Sufferer, Making Him Feel Twenty-Five Years Younger.

Sick kidneys cause a weak, lame or aching back, and a weak back makes a weak man. Can't be well and strong until the kidneys are cured. Treat them with Doan's Kidney Pills. Here's the testimony of one man cured.

J. B. CORTON.

J. B. Corton, farmer and lumberman, of Deppe, N. C., says "I suffered for years with my back. It was so bad that I could not walk any distance nor even ride in easy buggy. I do not believe I could have raised ten pounds of weight from the ground, the pain was so severe. This was my condition when I began using Doan's Kidney Pills. They quickly relieved me and now I am never troubled as I was. My back is strong and I can walk or ride a long distance and feel just as strong as I did twenty-five years ago. I think so much of Doan's Kidney Pills that I have given a supply of the remedy to some of my neighbors and they have also found good results. If you can sift anything from this rambling note that will be of any service to you, or to any one suffering from kidney trouble, you are at liberty to do so."

A FREE TRIAL of this great kidney medicine which cured Mr. Corton will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. Sold by all dealers; price, fifty cents per box.

Jack Harkaway's Schooldays

By BRACEBRIDGE HEMYNG

"Good! What are unstratified rocks?"

There was no answer. He began at the top of the class, saying: "You, you; next, next," and so on.

"This is bad," he exclaimed—"very bad."

Suddenly a little boy was supposed to exclaim, "They come to the surface by volcanic origin, from the interior of the earth, after the disposition of the strata, and you divide strata into primary, secondary and tertiary classes."

"Very good! Come up to the head of the class. I am pleased with you, Turner," said Mr. Mole.

"Please, sir, I didn't answer," replied Turner.

"Who was it, then? Was it you, Mallinson, or you, Filmer?"

"No, sir."

"Oh, my, here's a go!" was heard in the center of the room.

Mr. Mole turned sharply round. He could see nobody.

"This is very odd," said he. "Now, attention. What distinguishes primary rocks?"

"You don't find any moles in them."

"Hunston senior, that was you. Don't deny it—the voice came from you. Go down to the bottom of the class," exclaimed Mr. Mole angrily.

"It's hard lines"— began Hunston senior.

"No arguing, sir. Go down, or I'll report you."

Hunston senior went sullenly to the bottom of the class.

"Now, listen. Primary rocks have no fragments of pre-existing rocks and are hard and slaty," Mr. Mole went on.

"So are you," said Jack, throwing his voice in Hunston's direction again.

"Hunston senior," cried Mr. Mole, "leave the room!"

"But"—

"Don't answer me. I shall report you to the head master. Go!"

Harry Hunston—that was his name—put his book under his arm and walked away.

Jack threw his voice after him, saying: "Don't try any of your games on with me. I've been in the navy, and you don't perform on me."

The boys laughed. Mr. Mole grew white with rage.

"Chain him up," said Jack.

This time the voice came from the window.

"Who's that?" exclaimed Mr. Mole.

He rushed to a table, climbed up, looked out; but, of course, could see nobody. The boys meanwhile were convulsed with laughter.

"This is very odd," Mr. Mole remarked. "Order in class! What are secondary rocks?"

The head boy answered, "They extend from the primary strata to the chalk."

The voice at the window said: "Your chalk, Mr. Mole, isn't good at the Lillie Bridge tavern. They say they won't tick you any more."

Mr. Mole made another frantic rush to the window and with the same result.

"If I am to be disturbed and insulted in this way, the lessons cannot go on," said Mr. Mole.

M. Bolivant's French class was next to the senior master's, and, seeing what was going on, he came over to his colleague and asked if he could assist him.

"Vat is it?" he said. "Shall I shut the vindow for you? Is it that it makes too cold?"

"No," answered Mr. Mole; "it's"—

"Frogs," said Jack, putting the words into Turner's mouth.

"Vat's dat you say? Frogs to me? Frogs, eh? Vat you say?" cried M. Bolivant furiously.

"Waterloo," said Jack.

"Ha, ha! You say frogs and Waterloo. Ver well. I shall speak to ze principal. I know you new boy, you Turner. You shall be cane!"

"Talk English," said Jack.

This time the voice came from Mr. Mole himself. M. Bolivant looked at him seriously.

"Mr. Mole," he said, "is it that you chaff me, as ze boys say? I am surprise! Sare, you forget yourself! You are one scumbug!"

"I beg your pardon. I did not say anything," Mr. Mole hastened to exclaim.

"Vat! You think I am one fool? Go to bed!"

"Ha, ha! Waterloo! Frogs!" said Jack.

"You say 'Ha, ha!' You say 'Waterloo!' and 'Frogs!' to me. I say to you booby, plum pudding! That vat I say to you, sare, and I snap my fingers in your face!"

"Go it, Bolivant!" said Jack from the window.

"Who is it that say 'Go it, Bolivant?' To you boys I am M. Bolivant, for I will not lower myself like this Mole, this earth creature, this insect!"

"Give him snakes!" cried Jack again from the window.

"Where is that boy? I wish I could catch him!" said M. Bolivant. "But I will not be what you call chaffed. I will give you one hit on the nose—so—and I will kick you a la savate—so!"

He struck Mr. Mole in the face and attempted to kick him, but the senior master caught him by the foot and threw him backward. The whole school was now in a ferment. Mr. Stonor and Mr. Pumpleton left their inspection classes, and the principal happened to come in to correct the English exercises.

"What is this?" exclaimed Mr. Crawcour. "Mr. Mole with his fists clinched and M. Bolivant on his back! Disgraceful! How can you expect the boys to be orderly when they have such a bad example? Gentlemen, I am ashamed of you!"

"Shut up!" said Jack, making his voice come from the senior master.

"Mr. Mole!" exclaimed the principal in astonishment.

"I said nothing, sir," replied the senior master. "My opinion is that the place is bewitched. I shall go out and then perhaps you will get at the bottom of it."

"It wouldn't be the first time. He's caned a good many."

This time Jack made Mr. Pumpleton speak.

"Mr. Pumpleton," said the principal, "did that remark emanate from you?"

"No, sir, it did not."

A Splendid Chance.

Everybody who is weak, delicate or sickly wants to get well. Dr. Greene, of 34 Temple Place, Boston, Mass., makes a specialty of treating patients through letter correspondence. The wisest thing all suffering people can do is to write the Doctor, stating just how they feel, mentioning every symptom of which they complain, and he will answer the letter, explaining each symptom and describing the case so thoroughly that patients understand their complaint as well as though they had talked with the Doctor. He makes his explanations so clear that they cannot help but understand just what ails them, and he tells exactly what to do to get well. It saves a journey to the city and doctor's fees, and costs nothing. Dr. Greene is the most successful specialist in curing nervous and chronic diseases. He is the discoverer of that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. Thousands are being cured through his perfect system of letter correspondence. It has been proved successful

TED R.

Black colt foaled August 23, 1900. Property of H. P. Millett, South Paris, Me. Stands 15 hands and three inches high and weighs 1100 pounds. Sire, Francisco, son of Stamboul 2.07¼. Dam, Typewriter, pacing trial 2.2½, by Battalia 2.36¼ son of Glenarm 2.33½.

Francisco was got by Stamboul, sire of Stamboulet 2.04¾, Ellert 2.11, Stam B. 2.11¼, Elsie S. 2.11½, and a total of 45 in the 2.30 list, all trotters, thirteen of them, or about 35 per cent., being in the 2.10 list, while fourteen sons have 83 in the 2.30 list, and eight daughters had nine in the list to the close of 1902, among those from daughters being Wiggins (2) 2.19¾, the sire of sensational speed, of these nine seven being in the 2.10 list.

Francisco was out of Nola (dam of Nola, 2.29½) by Nutword, sire of 168 in the standard list, whose sons, 135 in number, have 452 trotters with records of 2.30 or better, and 511 pacers with records in 2.25 or better Daughters of Nutwood have produced 202 with standard records, leading all sires in this respect.

The second dam of Francisco was Belle Byron, dam of Claus Almont, 2.19¾, she by Clark Chief, and third dam Belle Hook by Almont 33, which was the sire of Constellation, sire of Glenarm, 2.23½, thus giving this colt a double cross to Almont.

Battalia which got the dam of Ted R, was a fast horse but had little training. As has been said he was a son of Glenarm 2.23½, one of the gamest racing stallions of Maine in his day and a good sire. Cyril, son of Glenarm, is the sire of Cephas, 2.11¾, and daughters of Glenarm produce such trotters as Bismarck, 2.13¾, Eddie B., 2.14¾, etc.

Ted R. is a strongly made colt of much substance and should get the right kind of horses for the road or track. No attempt has yet been made to develop his speed.

He will make the season of 1905 at my stable on Pleasant street. Terms, $15.00 to warrant Usual return privileges. Call on or address

Tuell sold one horse and exchanged Mrs. Tuell's colt, "Baby Croix," for a large horse to go on his bakery wagon.

Whooping Cough.

This is a very dangerous disease unless properly treated. Statistics show that there are more deaths from it than from scarlet fever. All danger may be avoided, however, by giving Chamberlain's Cough Remedy. It liquifies the tough mucus, making it easier to expectorate, keeps the cough loose, and makes the paroxysms of coughing less frequent and less severe. It has been used in many epidemics of this disease with perfect success. For sale by Noyes Drug Store, Norway, Shurtleff's, South and West Paris. 20 24

HOW GERM DISEASES START.

People with Weak Stomachs in a Continual State of Danger.

Nearly all disease germs that find lodgement in the system gain entrance with the air we breath, or through our food and drink.

If the stomach and digestive organs be weak, so that food does not readily digest, they will contain a sour, slimy, fermenting mass, an ideal spot for the disease germs to grow and spread through the whole system.

People with a weak stomach are in a continual state of danger, and they should use the best means, Mi-o na, to strengthen that organ and tone up the whole digestive system. This remedy is a certain cure for all diseases of the stomach excepting cancer. Used before each meal, it so strengthens the whole digestive system that you can eat what you want and all you want without fear of indegestion. There will be no fermentation of food, and the stomach and intestines will be so clean and pure that disease germs cannot possibly live, when Mi-o na is used.

If you suffer with headache, backache, variable appetite, nausea, gnawing at the pit of the stomach, sallow skin, heart-burn, furred tongue, sleeplessness, and general debility, it shows that the stomach has been overworked and weakened. A fifty cent box of Mi-o-natablets will give quick and speedy relief.

Ask Noyes Drug Store, one of the most reliable drug firms in Norway, to show you the strong guarantee under which they sell Mi-o-na.

George R. Morton has recently done a job at bagging game which is worth relating. A rat got into the cellarway, and Mr. Morton took an electric pocket lantern and the poker, and went to investigate. The electric light was nearly exhausted and went out on him, so he merely threw the poker in the direction of the vanishing rat, and retired. On going later with a lamp to pick up the poker, he found the rat dead. The poker, thrown at random in the dark, had hit its mark.—[Democrat.

Milton Morton suffered a paralytic shock on Tuesday of last week, and died from its effects Thursday night. Mr. Morton was 74 years of age, a native of Paris and a citizen of the town during most of his life. He served in Co. F. of the Twenty-third Maine, and was a member of Wm. D. Kimball Post, G. A. R. He leaves a widow but no children. The funeral was held at 10 o'clock Saturday, and was attended by Rev. H. A. Clifford of the Methodist church. Wm. K. Kimball Post was in charge, and performed its burial service.

News has been received of the death of Mrs. William L. Noble in Mexico last Tuesday. Mr. and Mrs. Noble lived here for some time, in George Wise's house on Gothic street, going to Mexico in March. Mrs. Noble was much respected and admired by all who knew her here.

About a hundred Pythians together with a good number of the Sisterhood and friends attended the observances of Pythian Sunday, May 21. The lodge assembled at the hall, marched to Riverside cemetery where the graves of two Knights were decorated. Joined by the Sisterhood they marched to the Congregational church. The program comprised singing by a quartet, Miss Wheeler, Mrs. Whittle, Messrs. Dunn and Briggs, solo by Miss Wheeler, with violin obligato by Carl Briggs, organist Mrs. Cora S. Baiggs. Rev. A. K. Baldwin spoke from the text Mark 10: 43 45. "But whoever would become great among you, shall be your minister," explaining the law of service as exemplified in the organization and deeds of the order.

HARRISON.

Memorial Day.

John A. Logan Post of Harrison wil carry out the following program for Memorial services:

Sunday, May 28th, meet at G. A. R. Hall at 12.30 o'clock sharp, attend church at Congregational church in a body, where Rev. Fred E. Winn will preach Memorial sermon.

Tuesday, May 30th, comrades will decorate graves in outlying cemeteries in the morning, then meet at G. A. R. Hall at 9.30 o'clock sharp, then to village cemetery where G. A. R. services will be held, and then to Congregational church, where Rev. E. Z. Whitman will deliver address. Dinner in vestry after the address. All old soldiers and their families invited to attend the services with the Post.

Broke into the Postoffice.

The postoffice at Harrison village was broken into Tuesday morning about 1.30 The robbers pried open the door, but were frightened away before they did any other damage or secured any property.

Mrs. Fred Learned, who lives in the "tavern stand" just across the street, has the asthma and got up about one o'clock to go to the window, and in doing so overturned a chair making disturbance enough to frighten the robbers, one of whom was posted by an elm tree to watch. They left without securing anything, the only damage being to one of the doors. They were followed about half a mile from the village on the Norway road, where the tracks became confused with others and the chase was abandoned.

The Harrison ball team went to Bolster's Mills last Saturday, to meet defeat for the second time this season at the hands of the Bolster's Mills boys, this time with a score of 15 to 5.

James Stone was in Lewiston on business, last Saturday. Mr. Stone has practically given up farming and gone into the meat business. He has had several years experience as a meat man.

John Johnson and wife of Bridgton, old residents of this town, visited at A. F. Davis', recently. Mr. Johnson has had about 60 years of experience in farming, and he says "Don't put your seed in the ground until the apple trees blossom." It certainly seems of little use to plant as long as we have heavy frosts. The mercury at five o'clock, Monday morning, stood at 32 degrees.

All of the schools in town observed Arbor Day in some fitting manner, setting out trees, making flower gardens, cleaning up the school yards, etc. Mrs. Vida Greene, the teacher at Bolster's Mills, added a novel feature, in the shape of a miniature town meeting held by her scholars after the close of the regular exercises. Her class in civil government led off in the matter, doing everything in regular legal form, even to the drawing up of the warrant, and posting it seven days before the day of the meeting.

NORTH LOVELL.

Kezar Lake Items.

On Saturday, May 13th, Mr. Hodgdon of Boston, who is stopping at Ben Brown's, caught a 5 pound salmon near Mill brook.

Mr. Andrews, who has charge of Mr. Goldsmith's cottage, tried the troll on Monday and hooked on to a large salmon and got him close to the landing net, when he made a fierce break and tore away from the hook. "He's gone," said Mr. A.

Hooking good fish and losing them, more by bad luck than lack of skill, seems to be epidemic this season—most of the fishermen have had a taste of this experience.

Col. Harry Littlefield, while trolling with live bait on Tuesday, noted the swallows skimming near the water catching flies. He took the hint, rigged up a fly rod and casting line put on a "brown hackle" and "silver doctor" and commenced tossing flies. In a short time he had a good rise and strike from a salmon of three or four pounds. This fish after two or three leaps took French leave. Later in the day, however, the colonel struck a 7 pounder with the "silver doctor" and his seven ounce fly rod, and after an exciting bout of thirty minutes successfully landed him.

The salmon fishing on Kezar lake is improving as the season advances. Down by Mill brook several have been taken and several large ones hooked and lost. Mrs. Ben Brown played a ten pounder for forty-five minutes bringing him up to the boat several times but was sorely disappointed to see him leave the hook, as the net was put over the boat side.

Col. Littlefield and Mr. Newkirk each landed a 7 pounder near Bryan's Ledge on Saturday and report several strikes. The colonel landed a two pounder at the Narrows, which was gratifying as showing the salmon are breeding in these waters.

Dr. Herman L. Bartlett of Norway has been a guest of Col. H. D. Littlefield at the Newkirk cottage for a couple of days' fishing on the lake. He carried home an 8½ pound salmon as a trophy of his skill with the trolling rod. Col. Littlefield hooked a large salmon on a fly hook the same day. The fish broke away and on examining the hook found the fish had taken the "barb" of the hook with him, which accounts for his escape from capture.

WATERFORD.

An Old Landmark Gone.

The house owned and occupied by John Mason was burned about 12 o'clock Thursday, May 18. Contents of the lower floors were mostly saved. The fire caught around the chimney and as Mr. Mason was at work out of sight of the buildings it was under full headway before discovered. Loss partly covered by insurance.

This was one of the oldest houses in town, was built probably between 1790 and 1795 by John Chamberlain one of proprietors of the town and who married one of the famous Haskins family. The first settled minister, Rev. Lincoln Ripley, occupied it for many years preaching in the barn until the meeting house was built, which stood near and was afterward taken down and furnished material for the present town house. Mr. Ripley was ordained to the ministry in 1798 on a large boulder which is in a prominent place in the dooryard. He lived to an advanced age. The situation of this old home was a beautiful one overlooking the village and lake with Mt. Tire'm at the right and we hope it will not long remain vacant.

HIRAM.

A Small Boy and a Big Fish.

George Merrill, Henry Merrill's little boy, went fishing in Saco river last week for black bass, salmon, or any other fish a small boy could handle. He had not been fishing long before—why, he thought he had a whale fastened to his line. George pulled, twisted and flopped about with great excitement, and so did the fish. The excitement grew to such a pitch George broke his rod, but hanging to the remnant he dragged his fish ashore. It was a black bass. He managed to get to the house and on to the scales. George found out that he, George, was a little mite the heaviest of the two.

OXFORD.

Mrs. Mary S. Parrott.

May 14th, occurred the death of Mrs. Mary A. Parrott, wife of George J. Parrott of Oxford.

Mrs. Parrott was the eldest daughter of the late Joseph and Francis A. Robinson, and was born in Leeds, England, on Feb. 4, 1835. She came to Oxford nearly fifty years ago with her parents, who at that time began the woolen mill business, which has been such an important factor in the life of the community. One brother and three sisters survive her, John B. Robinson, Mrs. Louisa M. Richmond, Mrs. Lina A. Carr of Oxford and Mrs. George Andrews of Portland.

She was married to Mr. Parrott forty-seven years ago. Ten children have been born to them, five of whom are deceased, four in infancy. The four sons and one daughter living are Joseph R. of Jacksonville, Fla.; Elmer L. of Portland; Albert E. of Lewiston; James E. and Evie L. of Oxford. There are also three grandchildren.

Mrs. Parrott was quiet and unassuming and thoroughly devoted to her family. She has been in ill health for the past six months, and all that medical skill and careful nursing could do was done.

Her eldest son, Joseph R. Parrott, who has large railroad interests in Florida, came home to visit his mother, and under pressure of business returned, only to be recalled in two weeks, as she was apparently nearing her end.

The brother, John B. Robinson, is the head of the Robinson Manufacturing Company at Oxford.

The service was held at the home on Wednesday afternoon, Rev. Frederick Newport of the Congregational church officiating. A large circle of relatives and friends were in attendance, and the many and beautiful floral tributes expressed the love and esteem in which the deceased was held. The interment was in the Congregational cemetery at Oxford.

We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

You must look well after the condition of your liver and bowels. Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia, and thus preventing the Sarsaparilla from doing its best work. Ayer's Pills are liver pills. Act gently, all vegetable. The dose is only one pill at bedtime.

Two and Two Don't Make Four.

Two and two make four—not always; depends upon what "two and two" are.

Two gallons of water and two gallons of milk don't make four gallons of milk.

Neither does four gallons of paint that's half lime, whiting, clay and kerosene oil, make four gallons of real paint.

That's what we mean by saying "Fewer gallons; wears longer." It takes fewer gallons of Devoe lead-and-zinc than of mixed paints to paint a house, and it wears twice or three times as long as lead-and-oil mixed by hand.

Mr. Charles Avery, of Herkimer, N. Y. bought 51 gallons of Devoe lead-and-zinc to paint his five houses, his painter having figured that it would require at least that amount; 36 gallons did the work and he returned 15 gallons.

Loren B. Merrill commenced work last week at Mount Mica, and is engaged in building a track and car to run from the mine down to a point some distance below. The motive power for the road will consist of a slide down the hill and a string to pull the car back to the top. Mr. Merrill said the other day that he would be president, general manager, freight agent and train dispatcher on the new road, and that no passengers would be carried. The mine will be worked this season much as it has in the past, and those in charge are looking forward to a prosperous summer and the opening of many new pockets which will turn out valuable minerals.

"Down in Maine."

Local Cast from Bridgton.

The domestic drama, "Down in Maine," Charles Townsend's masterpiece, will be presented at Robinson hall Oxford, Saturday evening, May 27th, under the auspices of the Bridgton Camp of the Modern Woodmen of America.

The drama will be staged under the personal direction of George E. Weeman, under whose management it has been a most phenominal success wherever it has been presented.

The characters of "Down in Maine" are drawn from common life; they are real people, so real indeed that the spectators are often lead to believe that they have stepped from their every day life to the stage. One of the most pleasing features of the drama is that there is "no villain," no "long lost child," no "impossible plot" or impossible characters. It presents pictures of rural life, with its joys and sorrows, its hopes and fears. Bright humor and tender pathos go side by side. Many critics, in speaking of this play, go so far as to say that "Down in Maine" is the best domestic play for amateur performance ever published.

The drama was recently given at Bridgton, two nights in succession, and the News, in speaking of the performance, said:

"When an entertainment draws out a larger audience the second evening than it does the first, it is proof sufficient that the affair meets with the approval of the public. "Down in Maine," given at Oxford Friday and Saturday evenings of last week, filled the opera house, Friday evening and packed it to to over-flowing, Saturday, with an audience that was en-thusiastic and appreciative at everyturn."

The drama will be given with the same cast that has made the play famous in Bridgton and neighboring towns. Arthur W. Sanborn plays the leading character part, and his record for dramatic ability is such, and he is supported by a company of such excellence, that the entertainment is sure to be of the highest order. Clever specialties will be introduced, during the play and between acts, by members of the caste, assisted by Mae Jordan, Bridgton's most popular soloist, all to conclude with a free dance, with music by the M. W. A. orchestra of Bridgton.

Backache, "The Blues"

Both Symptoms of Organic Derangement in Women—Thousands of Sufferers Find Relief.

How often do we hear women say: "It seems as though my back would break," or "Don't speak to me, I am all out of sorts?" These significant remarks prove that the system requires attention.

Backache and "the blues" are direct symptoms of an inward trouble which will sooner or later declare itself. It may be caused by diseased kidneys or some uterine derangement. Nature requires assistance and at once, and Lydia E. Pinkham's Vegetable Compound instantly asserts its curative powers in all those peculiar ailments of women. It has been the standby of intelligent American women for twenty years, and the ablest specialists agree that it is the most universally successful remedy for woman's ills known to medicine.

The following letters from Mrs. Holmes and Mrs. Cotrely are among the many thousands which Mrs. Pinkham has received this year from those whom she has relieved.

Surely such testimony is convincing.

Mrs. J. G. Holmes, of Larimore, North Dakota, writes:

Dear Mrs. Pinkham:—

"I have suffered everything with backache and womb trouble—I let the trouble run on until my system was in such a condition that I was unable to be about, and then it was I commenced to use Lydia E. Pinkham's Vegetable Compound. If I had only known how much suffering I would have saved, I should have taken it months sooner—for a few weeks' treatment made me well and strong. My backaches and headaches are all gone and I suffer no pain at my menstrual periods, whereas before I took Lydia E. Pinkham's Vegetable Compound I suffered intense pain."

Mrs. Emma Cotrely, 109 East 12th Street, New York City, writes:

Dear Mrs. Pinkham:—

"I feel it my duty to tell all suffering women of the relief I have found in Lydia E. Pinkham's Vegetable Compound. When I commenced taking the Compound I suffered everything with backaches, headaches, menstrual and ovarian troubles. I am completely cured and enjoy the best of health, and I owe it all to you."

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any substitute.

FREE ADVICE TO WOMEN.

Remember, every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Mrs. Pinkham's address is Lynn, Mass., her advice is free and cheerfully given to every ailing woman who asks for it. Her advice and medicine have restored to health more than one hundred thousand women.

RIGHT TIME TO CURE CATARRH.

Noyes Drug Store Guarantee Hyomei Will Cure if Used Now.

The early summer when the weather becomes warm and settled, is the best time of the whole year to treat catarrhal troubles with the expectation of complete and lasting relief.

Everyone who has catarrh of the head and throat should know how foolish it is to try and cure it by drugging the stomach.

Until recently your physician would have said that the only way to cure catarrh would be by a change of climate, but now with Hyomei you can carry a health-giving climate in your purse or vest pocket, and by breathing it a few minutes four times a day soon cure yourself.

Everyone who has catarrh, or even a tendency to catarrh, should use Hyomei now, for the benefit will be gained twice as quickly and the disease thoroughly eradicated from the system.

The complete Hyomei outfit costs but one dollar, and includes a neat pocket inhaler, a medicine dropper, and sufficient Hyomei for several week's treatment. The inhaler lasts a lifetime, and if more Hyomei is needed, extra bottles can be obtained for 50 cents.

In Norway there are scores of well known people who have been cured of catarrh by Hyomei. If it does not cure you, Noyes Drug Store will return your money. This is the strongest evidence they can offer as to their faith in the remedy.

SICK AT NIGHT WELL IN THE MORNING.

A MOST WONDERFUL CHANGE IN EVEN A FEW HOURS CAN BE EASILY ACCOMPLISHED IN NATURE'S WAY.

Your head aches and feels heavy. Perhaps your throat is a little dry. You have little appetite, and occasionally chilly feelings creep along the spine. Your eyes are hot, tongue furred, and you are about half knocked out. You know what the trouble is. You have been drinking and eating too much. You have felt this way before and it took you a week to get well. You are just "bilious" and your stomach has gone back on you. Now if you do the right thing at the very start you will feel better tomorrow. Just take two or three of Smith's Pineapple and Butternut Pills, take them now, and tonight when you retire take one or two more, and you will feel one hundred per cent better tomorrow morning and before the day is passed you will forget all about it. These wonderful little pills, combining the antiseptic and resolvent properties of pineapple with the laxative and cleansing effects of butternut, will quickly relieve a congested circulation, and drive out of the blood the bile accumulations, restoring harmonious action to the digestive organs. Just one day's use of these little pills will cure any threatened bilious attack. They are good for young or old, never gripe or weaken, nor leave behind any unpleasant after effects. They always cure sick headache, constipation and biliousness in one night. 25 cents at all dealers.

NORTH LOVELL.

Fishing Notes from Kezar Lake.

During the past week the salmon fishing has somewhat improved. Mr. Reagan of Boston has taken a 7 lb. Col. Littlefield landed another 8 lb. Mr. Newkirk of Boston hooked a big one, fairly estimated of 10 lb. weight, and had a ten minute play with him, but the fish tore out and broke away while close to the boat; and Mr. N. with a look of grievous disappointment replaced the landing net and simply ejaculated "He's gone!"

"Wes" Adams and his son Jesse tried a troll on Friday. Jesse, who is a lad of about 12 years, hooked on to a six pound er and with a little outside assistance got him into the boat and started for home, a very proud boy.

Three or four good "strikes" are reported, supposedly salmon, down by Mill brook, where the big fish are now showing up.

One day last week, Jim Vance and Howard Palmer went out in a boat to row and perchance to fish. The wind blew fiercely and the rolling waves dashed high. Now Jim Vance beside being a guide and a boatman is a veteran "salt" of the Civil war, having served Uncle Sam in the navy, but Jim finds there is a difference between a forty-four gun frigate of the old navy and a canvas canoe of the present day. He sort of forgot his ballast and bearings, shipped a heavy sea, swamped the boat, took a very cold bath and a long drift to shore on the keel of his canoe. Howard thought it a good joke, laughed and shook himself like a big Newfoundland water dog, while Jim alas! he looked and felt like a two year marine, just out of the "brig."

Bessie Andrews is very sick with rheumatic fever.

Mrs. Mary McKeen has been sick but seems to be gaining slowly.

David Bradley and S. Evans of Fryeburg were in the place, the 15th.

G. M. and F. L. Harriman have sold their span of sorrel horses to N. T. Fox of Lovell.

G P. McAllister had some very sick cattle last week caused by eating something poison in the pasture.

Will Allen is at work on the cellar of the cottage he intends to build on the shore of the lake this spring.

A big lot of pulp wood is being "boomed" ready for a push down the lake with the first favorable northeaster.

Mr. and Mrs. John Kendall and little son Norman visited at Perley McKeen's recently. Mrs. Agnes Harriman, baby daughter and son Guy spent the day with Mrs. Abbie McKeen the 12th, also Mrs. Mabel Fox of Center Lovell and M. A. Sargent of West Lovell were guests the same day.

H. Price Webber Here.

The Boston Comedy Company finished the season with an appearance at Norway Opera House, Tuesday evening, presenting the play, A Waif from the Sea, written by Mrs. Webber and perfectly adapted to her capabilities, as well as those of the company. The play was well presented. Mrs. Webber (Edwina Grey) was excellent in the leading part of Helen Whitney. W. H. Bedell as the villian was good, and the secondary parts were well filled. Mr. Webber appeared in his customary humorous part and pleased the audience very much, his appearance being the signal for an ovation.

He appeared before the curtain and spoke very appreciative of his first appearance here twenty-seven years ago and of the experience of the past years. The Opera House was almost completely filled with spectators. The company left early Wednesday morning for Boston.

There will be a general Class meeting at the Methodist vestry, Friday evening, June 5nd.

Mrs. E. F. Morse on Pike Hill opened her house for summer boarders this week. It is one of the pretty locations in town.

J. A. Woodman has visited Lake Auburn eight times in quest of a ten-pound salmon. Up to his last trip he has not caught one, but this time he got a three-pounder. John is to keep trying. He says they must have caught at least 500 pounds of salmon on the day he was there.

Joseph H. Clark, one of the pioneer piano manufacturers of the country, died in Portland last Saturday, almost 88 years old. He was born in Waterbury, Conn., and moved to Portland nearly 50 years ago. He had been married three times, his third wife being Ellen Mixer of Norway. She still survives him.

The Christian Endeavor society of Norway Center is to have a sociable at their vestry, Saturday evening, June 3. A. E. Morse of South Paris will entertain the people with readings and the society will furnish music, after which refreshments will be served consisting of ice cream and cake. The proceeds will be used towards the purchase of a new organ for the church.

We clip the following from the Waterville Sentinel:—The ceremony of burying Virgil at Coburn was carried out yesterday forenoon. The full details of a Roman funeral were carried out as completely as possible and a fine oration was made by Oscar J. Tubbs of the class. The ceremony was very instructive and was a great improvement over the old style of hanging an effigy of the celebrated old poet.

The Norway band turned out Saturday afternoon to greet the Lewiston team of ball players, who were to meet the Radcliffes in the first game of the season. There were also on hand at the fair grounds about 300 anxious persons. However, the Lewistons didn't show up, word being received at 5 p. m. that the Lewistons hadn't reached Mechanic Falls. Then the band, the anxious spectators and the rest who hoped to see a good ball game went home.

Eddie Chick, 13 years old, and the son of C. W. Chick, was about the proudest youth in town last Saturday after he had landed a 2½ pound red-spot trout from the brook running through the meadow. He was fishing from the bridge on Greenleaf avenue, near Murdock's machine shop, when he got a tug from the line that nearly pulled him overboard. He ran on to the meadow and after much exertion landed the fish on the bank. It was another of the big fish from the lake which have gone down the stream because there is no screen at the sawmill.
